SUBJECT: MATHEMATICS

TEXT BOOK: FLOWERS SEMESTER I AND II

JUNE	<p>Counting: 1 to 100</p> <p>Writing : 1 to 50</p> <p>Concepts: big – small, tall - short</p> <p>Exercises given in the text book [semester-I page 66, 72,73,74,75,76,77]</p>	<p>Counts numbers 1 to 100 in order. Can count forward from a particular number up to 10</p> <p>Develops foundational numeracy skills by learning to write and recognize numbers 1 to 50 in sequential order.</p> <p>Develops the ability to discriminate between objects based on their size, identifying big, small, tall and short items.</p>
JULY	<p>Counting: 1 to 100</p> <p>Writing:51 to 60, 1 to 60</p> <p>Concepts: long – short, more-less, thick-thin</p> <p>Number names: one-1, two-2, three-3</p> <p>Exercises given in the text book (semester I page 67,68, 86,87, 96)</p>	<p>Counts numbers 1 to 100 in order. Can count forward from a particular number up to 10</p> <p>Develops foundational numeracy skills by learning to write and recognize numbers 1 to 60 in sequential order.</p> <p>Develops the ability to discriminate between objects based on their size, identifying long, short, more, less, thick and thin items.</p> <p>Develops foundational numeracy skills by learning to associate number names with their corresponding numerical symbols.</p>
AUGUST	<p>Counting: 1 to 100</p> <p>Writing :61 to 70, 1 to 70</p>	<p>Counts numbers 1 to 100 in order. Can count forward from a particular number up to 10</p> <p>Develops foundational numeracy skills by learning to write and recognize numbers 1 to 70 in sequential order.</p>

	<p>Concepts: heavy – light, far-near</p> <p>Number names: four-4, five-5, six-6</p> <p>Exercises given in the text book [semester I PAGE 69,70,71,88,89,90,91,92]</p>	<p>Develops the ability to discriminate between objects based on their size, identifying heavy, light items and far and near objects.</p> <p>Develops foundational numeracy skills by learning to associate number names with their corresponding numerical symbols.</p>
<p>SEPTEMBER</p>	<p>Writing: 71 to 80, 1 to 80 (semester II page 78,79)</p> <p>Shapes(semester I page 78,79,93,94,95</p> <p>Number names: seven-7, eight-8</p> <p>Bigger and smaller numbers (semester I page 97,98,99, semester II page 66)</p> <p>Sorting(semester I page 80,81,semester II page 62)</p>	<p>Develops foundational numeracy skills by learning to write and recognize numbers 1 to 80 in sequential order.</p> <p>Identifies each shapes and constructs shapes, compares shapes.</p> <p>Develops foundational numeracy skills by learning to associate number names with their corresponding numerical symbols.</p> <p>Develops foundational numeracy skills by understanding the concepts of larger and smaller numbers.</p> <p>Compares and classifies objects by more than three factors like shape, colour, size</p>

<p>OCTOBER</p>	<p>WRITING : 81 TO 90, 1 TO 90(semester II page 80, 81)</p> <p>NUMBER NAMES : nine-9, ten-10, eleven-11, twelve-12</p> <p>Before-After-Between numbers(SEMESTER II page 69,70,71)</p> <p>Smaller than (<) Greater than (>) Equal to (=)(semester II page 72,73 74,75,76,77)</p> <p>Matching and grouping(semester I page 82,83,84,85, semester II page 63,64,65)</p>	<p>Develops foundational numeracy skills by learning to write and recognize numbers 1 to 90 in sequential order.</p> <p>Develops foundational numeracy skills by learning to associate number names with their corresponding numerical symbols.</p> <p>Develops foundational numeracy skills by understanding the sequential order of numbers and their relationships.</p> <p>Compares two numbers correctly. Identifies the symbols correctly. Compares quantities that are not equal in nature.</p> <p>Matches the pictures with same number of objects</p>
<p>NOVEMBER</p>	<p>WRITING:91 TO 100, 1 TO 100(semester II page 82,83,84,85,86)</p> <p>Backward Counting 20 to 1</p> <p>Increasing Order Decreasing Order(ascending and descending order)</p> <p>ODD NUMBERS:1, 3, 5, 7, 9, 11, 13, 15, 17, 19 EVEN NUMBERS:2, 4, 6, 8, 10, 12, 14, 16, 18, 20</p> <p>NUMBER NAMES :thirteen-13, fourteen-14</p>	<p>Develops foundational numeracy skills by learning to write and recognize numbers 1 to 100 in sequential order.</p> <p>Develops foundational numeracy skills by understanding the reverse order of numbers.</p> <p>Develops foundational numeracy skills by understanding the concept of increasing order and decreasing order.</p> <p>Develops foundational numeracy skills by understanding the concept of odd and even numbers.</p> <p>Develops foundational numeracy skills by learning to associate number names with their corresponding numerical symbols.</p>
<p>DECEMBER</p>	<p>WRITING:1 TO 100</p> <p>NUMBER NAMES : fifteen-15, sixteen-16, seventeen-17, eighteen-18</p>	<p>Writes the numbers 1 to 100 in order.</p> <p>Develops foundational numeracy skills by learning to associate number names with their corresponding numerical symbols.</p>

	<p>Skip counting by 5's: 5, 10, 15, 20, 25, 30, 35, 40, 45, 50</p> <p>Skip counting by 10's: 10, 20, 30, 40, 50, 60, 70, 80, 90, 100</p> <p>ORDINAL NUMBERS(1st, 2nd, 3rd, 4th, 5th, 6th, 7th, 8th, 9th, 10th)</p>	<p>Counts by skipping 5's. Improves their counting fluency and recognize number patterns.</p> <p>Counts by skipping 10's. Improves their counting fluency and recognize number patterns.</p> <p>Describes the position of objects using ordinal numbers. Writes ordinal numbers up to the tenth number using numbers.</p>
JANUARY	<p>WRITING:1 TO 100</p> <p>Addition(semester I page 100, 101,102, 103,104,105,106,107,108,109) Addition with 0 Addition with 1 Picture addition Horizontal addition Vertical addition</p> <p>TIME</p> <p>NUMBER NAMES :nineteen-19, twenty-20</p>	<p>Writes numbers 1 to 100 continuously.</p> <p>Learns the vocabulary of addition as putting together. Grasps the concept that addition represents combining two or more quantities to find a total.</p> <p>Understands that clocks are tools used to measure time. Recognize the basic parts of a clock, including the clock face, hour hand, and minute hand. Learns to read and understand the position of the hour hand on a clock to tell time</p> <p>Writes the numbers in words. Develops foundational numeracy skills by learning to associate number names with their corresponding numerical symbols.</p>

FEBRUARY	<p>WRITING:1 TO 100 [REVISION] NUMBER NAMES one-1 to twenty-20 SUBTRACTION(semester II page 87 to 97) Subtraction with 0 Subtraction with 1 Picture subtraction Horizontal subtraction Vertical subtraction</p>	<p>Writes numbers up to 100 in order.</p> <p>Writes the numbers in words from 1 to 20</p> <p>Understands the concept of subtraction as taking away or finding the difference between two quantities. Understands that subtraction is the inverse operation of addition</p>

ART & CRAFT WORK

EXAM/MONTH	TOPIC	LEARNING OUTCOME
JUNE	SEQUENCE ART	Encourages students to express their creativity and unique artistic through their sequence art, fostering individually.
JULY	RUBBER BAND ART	Encourages students to think creatively and innovate in using rubber bands to create unique and visually appealing art. Explore the use of different coloured rubber bands to create visually harmonious and aesthetically pleasing compositions.
AUGUST	WOOL ART	Develops an understanding of different types of wool and fibers, their properties, and how they can be manipulated for artistic purposes.
SEPTEMBER	FINGER PRINT ART	Encourages creative thinking and imaginative expression as students use their fingerprints to form various shapes, objects, or scenes.
OCTOBER	COLLAGE ART	Develops an understanding of various materials used in collage art, such as paper, fabric, and applies fundamental design principles, such as balance, contrast, and emphasis, in creation of collage art.
NOVEMBER	SHELL WORK	Develops knowledge of different types of shells, including their shapes and sizes. Enhances fine motor skills through the delicate handling of shells during the crafting process.

DECEMBER	VEGETABLE ART	Develops knowledge of different types of vegetables, including their colours, shapes, and textures. Enhances fine motor skills through the precise cutting, carving, and arranging of vegetables during the art-making process.
JANUARY	LEAF ART	Develops knowledge of different types of leaves, including their shapes, sizes, and textures, and understanding the diversity of plant life. Enhances fine motor skills through the cutting, and arranging of leaves during the art-making process.

FEBRURY	PAPER FOLDING ART	Develops an understanding of basic origami techniques, including folding, creasing, and shaping paper.
MARCH	PALM PRINTING ART	Develops fine and gross motor skills through the controlled movement and pressure applied by the palms during the printing process. Provides a sensory-rich experience as students engage with the tactile qualities of paint, exploring different textures and colors.

FREE DRAWING

EXAM/MONTH	TOPIC	LEARNING OUTCOME
JUNE	JUG AND GLASSES	Develops the ability to observe and analyze the shapes, proportions, and details of a jug and glasses.
JULY	GRAPES AND A BIRD	Develops the ability to observe and analyze the shapes, textures, and details of grapes and a bird.

AUGUST	POND	Develops the ability to observe and analyze the elements found in a pond, such as water, aquatic plants, rocks, and possibly aquatic life.
SEPTEMBER	FRUITS BASKET	Develops the ability to observe and analyse the shapes, sizes, and textures of various fruits. Develop composition skills by arranging different fruits in a visually interesting and balanced way within the drawing space.
OCTOBER	THIRSTY CROW	Develops the ability to tell a story visually through drawings, capturing key moments and themes from the "Thirsty Crow" narrative.
NOVEMBER	FLOWER POT	Develops the ability to observe and analyze the shapes, proportions, and details of a flower pot.
DECEMBER	CUP AND SAUCER	Develops the ability to observe and analyze the shapes, proportions, and details of a cup and saucer.

JANUARY	BIRDS	Develops the ability to observe and analyze the anatomy, and characteristics of different bird species.
FEBRUARY	PARROT	Develops the ability to closely observe and analyze the unique features, colors, and anatomy of parrots.
MARCH	SCENERY	Develops the ability to closely observe and analyze the elements present in a landscape.
